#### DESCRIPTION

This PDF provides for lifecycle renovation of parking lots, entrance roads, and paved walkways within local parks. Because of the scope of work and for efficiency, multiple projects of similar nature are grouped in this one PDF. Work performed includes pavement renovation, overlays, and reconstruction. Renovation of hiker-biker trails is funded in a separate PDF.

#### COST CHANGE

Increase due to addition of FY13 and FY14 to this ongoing project.

#### JUSTIFICATION

This project is necessary to prevent the deterioration of existing parking lots, access roads, and walkways in parks. There are currently over 350 separate parking lots in the park system serving a variety of local and regional parks, with supporting access roads, sidewalks, and trails serving each park. Pavement typically requires renovation or reconstruction within a 10 to 20 year lifecycle. Failure to renovate pavement before the end of its useful life results in unsafe conditions and increased liability.

#### APPROPRIATION AND EXPENDITURE DATA

Date First Appropriation	FY99	(\$000)
First Cost Estimate	FY99	0
Current Scope		
Last FY's Cost Estimate		1,285
Appropriation Request	FY10	175
